

Version 2.1 PRD	Revision Date: 08/28/2019	15	DS Number: 0000001224 SUS / Z8/ 0001	Date of last issue: - Date of first issue: 09/06/2016				
SECTION 1	SECTION 1. IDENTIFICATION							
Produc	ct name	:	Eastman(TM) Cellulose Acetate Propionate (CAP-482-20)					
Product code		:	01861-00, P0186152, P0186100, P0186101, P0186132, P01861AB, P0186138, P01861SB, P0186139, E0186101, P0186108, P0186134, P01861A8, P018611S, P018611E, P01861AL, P01861TR, P0186140, P0186109, P01861EH, P0186179					
Manuf	acturer or supplier's	deta	nils					
Company name of supplier		:	Eastman Chemical Company					
Address		:	200 South Wilcox Drive Kingsport TN 37660-5280					
Telephone		:	(423) 229-2000					
Emerg	ency telephone	:	CHEMTREC: +1-	800-424-9300, +1-703-527-3887 CCN7321				
Recommended use of the o		hen	nical and restrictio	ns on use				
Recom	Recommended use		Polymer					
Restrictions on use		:	None known.					

SECTION 2. HAZARDS IDENTIFICATION

GHS classification in accordance with 29 CFR 1910.1200

Combustible dust

GHS label elements Signal Word		Warning
Hazard Statements	:	May form combustible dust concentrations in air.
Precautionary Statements	:	Prevention: P210 Keep away from heat/sparks/open flames/hot surfaces. No smoking. P243 Take action to prevent static discharges.
		Disposal: P501 Dispose of contents/container to an approved facility in accordance with local, regional, national and international regulations.

Other hazards

None known.

SECTION 3. COMPOSITION/INFORMATION ON INGREDIENTS

Components

Chemical name	CAS-No.	Concentration (% w/w)
cellulose acetate propionate	9004-39-1	100

SECTION 4. FIRST AID MEASURES

If inhaled	:	Move to fresh air. Treat symptomatically. If symptoms persist, call a physician.
In case of skin contact	:	Wash off with soap and water. If symptoms persist, call a physician. Cool skin rapidly with cold water after contact with molten material. Do not peel solidified product off the skin. Burns must be treated by a physician.
In case of eye contact	:	In the case of contact with eyes, rinse immediately with plenty of water and seek medical advice. Remove contact lenses, if present and easy to do. Continue rinsing.
If swallowed	:	Seek medical advice.
Most important symptoms and effects, both acute and delayed	:	The molten product can cause serious burns.
Notes to physician	:	Treat symptomatically.

SECTION 5. FIRE-FIGHTING MEASURES

Suitable extinguishing media	:	Water spray Dry chemical Carbon dioxide (CO2)
Unsuitable extinguishing media	:	Do not use a solid water stream as it may scatter and spread fire.
Specific hazards during fire fighting	:	Avoid generating dust; fine dust dispersed in air in sufficient concentrations, and in the presence of an ignition source is a potential dust explosion hazard.
Hazardous combustion prod- ucts	:	No hazardous combustion products are known
Further information	:	Minimize dust generation and accumulation.

Version 2.1 PRD	Revision Date: 08/28/2019	SDS Number: 150000001224 SDSUS / Z8/ 0001	Date of last issue: - Date of first issue: 09/06/2016
	al protective equipment e-fighters		ved positive pressure self-contained breathing dition to standard fire fighting gear.

SECTION 6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protec- tive equipment and emer- gency procedures	:	Wear appropriate personal protective equipment. Local authorities should be advised if significant spillages cannot be contained.
Environmental precautions	:	Avoid release to the environment.
Methods and materials for containment and cleaning up	:	Sweep up and shovel into suitable containers for disposal.

SECTION 7. HANDLING AND STORAGE

Advice on protection against fire and explosion	:	Minimize dust generation and accumulation.
Advice on safe handling	:	Mixing cellulose esters in a nonpolar hydrocarbon, such as toluene or xylene, may result in the buildup of static electricity, which can cause a flash fire or an explosion. When adding cellulose ester to any flammable liquid, an inert gas atmosphere should be maintained within the vessel.
Conditions for safe storage	:	Keep container tightly closed.

SECTION 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Ingredients with workplace control parameters

Contains no substances with occupational exposure limit values.

Engineering measures :	Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level.
------------------------	---

Personal protective equipment

Respiratory protection	: If engineering controls do not maintain airborne
	concentrations below recommended exposure limits (where applicable) or to an acceptable level (in countries where exposure limits have not been established), an approved respirator must be worn.

	Partition coefficient: n- octanol/water	: No data available		
	Autoignition temperature	: 810 °F / 432 °C Method: ASTM D2155		
	Decomposition temperature	Thermal stability not tested. Low stability hazard expected at normal operating temperatures.		
	Viscosity Viscosity, dynamic	: not determined		
	Viscosity, kinematic	: not determined		
	Explosive properties	: No data available		
	Oxidizing properties	: No data available		
	Dust explosion class	: St 2 - strong explosion		

SECTION 10. STABILITY AND REACTIVITY

Reactivity	:	None reasonably foreseeable.
Chemical stability	:	Stable under normal conditions.
Conditions to avoid	:	Minimize dust generation and accumulation.
Incompatible materials	:	Strong oxidizing agents
Hazardous decomposition products	:	Carbon monoxide Carbon dioxide (CO2)

SECTION 11. TOXICOLOGICAL INFORMATION

Acute toxicity

Not classified based on available information.

Product:		
Acute oral toxicity	:	Remarks: No data available
Acute inhalation toxicity	:	Remarks: No data available
Acute dermal toxicity	:	Remarks: No data available

Components:

cellulose acetate propionate:

Acute oral toxicity :	LD50	Oral (Rat):	> 6,400 mg/kg

SECTION 12. ECOLOGICAL INFORMATION

Ecotoxicity

Components:

cellulose acetate propionate:

Toxicity to daphnia and other : EC50 (Daphnia magna (Water flea)): > 1 mg/l aquatic invertebrates Exposure time: 48 h Remarks: (highest concentration tested)

Persistence and degradability

No data available

Bioaccumulative potential

No data available

Mobility in soil

No data available

Other adverse effects

No data available

SECTION 13. DISPOSAL CONSIDERATIONS

Disposal methods

Waste from residues : Dispose of in accordance with local regulations.

SECTION 14. TRANSPORT INFORMATION

International Regulations

IATA-DGR

Not regulated as a dangerous good

IMDG-Code

Not regulated as a dangerous good

Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code

Not applicable for product as supplied.

Domestic regulation

49 CFR

Not regulated as a dangerous good

SECTION 15. REGULATORY INFORMATION

EPCRA - Emergency Planning and Community Right-to-Know

CERCLA Reportable Quantity

This material does not contain any components with a CERCLA RQ.

SARA 304 Extremely Hazardous Substances Reportable Quantity

This material does not contain any components with a section 304 EHS RQ.

SARA 302 Extremely Hazardous Substances Threshold Planning Quantity

This material does not contain any components with a section 302 EHS TPQ.

SARA 311/312 Hazards	:	Combustible dust
SARA 313	:	This material does not contain any chemical components with known CAS numbers that exceed the threshold (De Minimis) reporting levels established by SARA Title III, Section 313.

California Prop. 65

This product does not contain any chemicals known to the State of California to cause cancer, birth, or any other reproductive defects.

The ingredients of this prod	luct	are reported in the following inventories:
DSL	:	All components of this product are on the Canadian DSL
AICS	:	On the inventory, or in compliance with the inventory
ENCS	:	On the inventory, or in compliance with the inventory
ISHL	:	On the inventory, or in compliance with the inventory
KECI	:	On the inventory, or in compliance with the inventory
PICCS	:	On the inventory, or in compliance with the inventory
IECSC	:	On the inventory, or in compliance with the inventory
TCSI	:	On the inventory, or in compliance with the inventory
TSCA	:	On the inventory, or in compliance with the inventory

TSCA list

No substances are subject to a Significant New Use Rule.

No substances are subject to TSCA 12(b) export notification requirements.

SECTION 16. OTHER INFORMATION

Further information

HMIS® IV:

HMIS® ratings are based on a 0-4 rating scale, with 0 representing minimal hazards or risks, and 4 representing significant hazards or risks. The "*" represents a chronic hazard, while the "/" represents the absence of a chronic hazard.
