

**Hydrocarbon Fluid Type III**

Version 1.6

Revision Date 2018-11-27

**SECTION 1: Identification of the substance/mixture and of the company/undertaking****Product information**

Product Name : Hydrocarbon Fluid Type III  
Material : 1024838, 1024839, 1024841, 1024840

Use : Fuel

**Company** : Chevron Phillips Chemical Company LP  
Specialty Chemicals  
10001 Six Pines Drive  
The Woodlands, TX 77380

**Emergency telephone:****Health:**

**SECTION 2: Hazards identification****Classification of the substance or mixture**

This product has been classified in accordance with the hazard communication standard 29 CFR 1910.1200; the SDS and labels contain all the information as required by the standard.

**Classification**

: Flammable liquids, Category 2  
Skin irritation, Category 2  
Eye irritation, Category 2A  
Reproductive toxicity, Category 2  
Specific target organ systemic toxicity - single exposure,  
Category 3, Central nervous system

**Hydrocarbon Fluid Type III**

Version 1.6

Revision Date 2018-11-27

Specific target organ systemic toxicity - repeated exposure,  
Category 2, Inhalation, Auditory organs, color vision  
Aspiration hazard, Category 1

**Labeling**

Symbol(s)

Signal Word

: Danger

Hazard Statements

: H225: Highly flammable liquid and vapor.  
H304: May be fatal if swallowed and enters airways.  
H315: Causes skin irritation.  
H319: Causes serious eye irritation.  
H336: May cause drowsiness or dizziness.  
H361d: Suspected of damaging the unborn child.  
H373: May cause damage to organs (Auditory organs, color vision) through prolonged or repeated exposure if inhaled.

Precautionary Statements

: **Prevention:**  
P210 Keep away from heat/sparks/open flames/hot surfaces. No smoking.  
P233 Keep container tightly closed.  
P240 Ground/bond container and receiving equipment.  
P241 Use explosion-proof electrical/ ventilating/ lighting/ equipment.  
P242 Use only non-sparking tools.  
P243 Take precautionary measures against static discharge.  
P260 Do not breathe dust/fume/gas/mist/vapor/spray.  
P280 Wear protective gloves/ protective clothing/ eye protection/ face protection.  
**Response:**  
P301 + P310 IF SWALLOWED: Immediately call a POISON CENTER/doctor.  
P303 + P361 + P353 IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower.  
P304 + P340 + P312 IF INHALED: Remove person to fresh air and keep comfortable for breathing. Call a POISON CENTER/doctor if you feel unwell.  
P305 + P351 + P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.  
P308 + P313 IF exposed or concerned: Get medical advice/ attention.  
P331 Do NOT induce vomiting.  
P337 + P313 If eye irritation persists: Get medical advice/ attention.  
P362 Take off contaminated clothing and wash before reuse.  
P370 + P378 In case of fire: Use dry sand, dry chemical or alcohol-resistant foam to extinguish.  
**Storage:**  
P403 + P233 Store in a well-ventilated place. Keep container tightly closed.  
P403 + P235 Store in a well-ventilated place. Keep cool.  
P405 Store locked up.

**Hydrocarbon Fluid Type III**

Version 1.6

Revision Date 2018-11-27

**Disposal:**

P501 Dispose of contents/ container to an approved waste disposal plant.

**Carcinogenicity:****IARC**

No ingredient of this product present at levels greater than or equal to 0.1% is identified as probable, possible or confirmed human carcinogen by IARC.

**NTP**

No ingredient of this product present at levels greater than or equal to 0.1% is identified as a known or anticipated carcinogen by NTP.

**SECTION 3: Composition/information on ingredients**

Synonyms : Rubber Swelling Test Fluid Type III

Molecular formula : Mixture

Component	CAS-No.	Weight %
2,2,4-Trimethylpentane (Isooctane)	540-84-1	69 - 71
Toluene	108-88-3	29 - 31

**SECTION 4: First aid measures**

General advice : Move out of dangerous area. Show this material safety data sheet to the doctor in attendance. Material may produce a serious, potentially fatal pneumonia if swallowed or vomited.

If inhaled : Consult a physician after significant exposure. If unconscious, place in recovery position and seek medical advice.

In case of skin contact : If skin irritation persists, call a physician. If on skin, rinse well with water. If on clothes, remove clothes.

In case of eye contact : Immediately flush eye(s) with plenty of water. Remove contact lenses. Protect unharmed eye. Keep eye wide open while rinsing. If eye irritation persists, consult a specialist.

If swallowed : Keep respiratory tract clear. Never give anything by mouth to an unconscious person. If symptoms persist, call a physician. Take victim immediately to hospital.

**SECTION 5: Firefighting measures**Flash point : -12.1 °C (10.2 °F)  
Method: Tag closed cup

Autoignition temperature : No data available

Suitable extinguishing : Alcohol-resistant foam. Carbon dioxide (CO<sub>2</sub>). Dry chemical.

**Hydrocarbon Fluid Type III**

Version 1.6

Revision Date 2018-11-27

media

Unsuitable extinguishing media : High volume water jet.

Specific hazards during fire fighting : Do not allow run-off from fire fighting to enter drains or water courses.

Special protective equipment for fire-fighters : Wear self-contained breathing apparatus for firefighting if necessary.

Further information : Collect contaminated fire extinguishing water separately. This must not be discharged into drains. Fire residues and contaminated fire extinguishing water must be disposed of in accordance with local regulations. For safety reasons in case of fire, cans should be stored separately in closed containments. Use a water spray to cool fully closed containers.

Fire and explosion protection : Do not spray on an open flame or any other incandescent material. Take necessary action to avoid static electricity discharge (which might cause ignition of organic vapors). Use only explosion-proof equipment. Keep away from open flames, hot surfaces and sources of ignition.

Hazardous decomposition products : Carbon oxides.

**SECTION 6: Accidental release measures**

Personal precautions : Use personal protective equipment. Ensure adequate ventilation. Remove all sources of ignition. Evacuate personnel to safe areas. Beware of vapors accumulating to form explosive concentrations. Vapors can accumulate in low areas.

Environmental precautions : Prevent product from entering drains. Prevent further leakage or spillage if safe to do so. If the product contaminates rivers and lakes or drains inform respective authorities.

Methods for cleaning up : Contain spillage, and then collect with non-combustible absorbent material, (e.g. sand, earth, diatomaceous earth, vermiculite) and place in container for disposal according to local / national regulations (see section 13).

**SECTION 7: Handling and storage****Handling**

Advice on safe handling : Avoid formation of aerosol. Do not breathe vapors/dust. Avoid exposure - obtain special instructions before use. Avoid contact with skin and eyes. For personal protection see section 8. Smoking, eating and drinking should be prohibited in the application area. Take precautionary measures against static discharges. Provide sufficient air exchange and/or exhaust in work rooms. Open drum carefully as content may be under pressure. Dispose of rinse water in accordance with local and national regulations.

**Hydrocarbon Fluid Type III**

Version 1.6

Revision Date 2018-11-27

Advice on protection against fire and explosion : Do not spray on an open flame or any other incandescent material. Take necessary action to avoid static electricity discharge (which might cause ignition of organic vapors). Use only explosion-proof equipment. Keep away from open flames, hot surfaces and sources of ignition.

**Storage**

Requirements for storage areas and containers : No smoking. Keep container tightly closed in a dry and well-ventilated place. Containers which are opened must be carefully resealed and kept upright to prevent leakage. Observe label precautions. Electrical installations / working materials must comply with the technological safety standards.

Use : Fuel

**SECTION 8: Exposure controls/personal protection****Ingredients with workplace control parameters****US**

Components	Basis	Value	Control parameters	Note
2,2,4-Trimethylpentane (Isooctane)	ACGIH	TWA	300 ppm,	URT irr,
Toluene	ACGIH	TWA	20 ppm,	visual impair, female repro, pregnancy loss, BEI, A4,
	OSHA Z-2	TWA	200 ppm,	
	OSHA Z-2	CEIL	300 ppm,	
	OSHA Z-2	Peak	500 ppm,	
	OSHA Z-1-A	TWA	100 ppm, 375 mg/m3	
	OSHA Z-1-A	STEL	150 ppm, 560 mg/m3	

A4 Not classifiable as a human carcinogen  
 BEI Substances for which there is a Biological Exposure Index or Indices (see BEI® section)  
 female repro Female reproductive  
 pregnancy loss Pregnancy loss  
 URT irr Upper Respiratory Tract irritation  
 visual impair Visual impairment

**Immediately Dangerous to Life or Health Concentrations (IDLH)**

Substance name	CAS-No.	Control parameters	Update
Toluene	108-88-3	Immediately Dangerous to Life or Health Concentration Value 500 parts per million	1995-03-01

**Biological exposure indices****US**

Substance name	CAS-No.	Control parameters	Sampling time	Update
Toluene	108-88-3	Toluene: 0.02 mg/l (In blood)	Prior to last shift of workweek	2010-03-01
		Toluene: 0.03 mg/l (Urine)	End of shift (As soon as possible after exposure ceases)	2010-03-01
		o-Cresol: 0.3 mg/g Creatinine (Urine)	End of shift (As soon as possible after exposure ceases)	2010-03-01

**Engineering measures**

Adequate ventilation to control airborne concentrations below the exposure guidelines/limits.

**Hydrocarbon Fluid Type III**

Version 1.6

Revision Date 2018-11-27

Consider the potential hazards of this material (see Section 2), applicable exposure limits, job activities, and other substances in the work place when designing engineering controls and selecting personal protective equipment. If engineering controls or work practices are not adequate to prevent exposure to harmful levels of this material, the personal protective equipment listed below is recommended. The user should read and understand all instructions and limitations supplied with the equipment since protection is usually provided for a limited time or under certain circumstances.

**Personal protective equipment**

- Respiratory protection** : Wear a supplied-air NIOSH approved respirator unless ventilation or other engineering controls are adequate to maintain minimal oxygen content of 19.5% by volume under normal atmospheric pressure. Wear a NIOSH approved respirator that provides protection when working with this material if exposure to harmful levels of airborne material may occur, such as: Air-Purifying Respirator for Organic Vapors. Use a positive pressure, air-supplying respirator if there is potential for uncontrolled release, exposure levels are not known, or other circumstances where air-purifying respirators may not provide adequate protection.
- Hand protection** : The suitability for a specific workplace should be discussed with the producers of the protective gloves. Please observe the instructions regarding permeability and breakthrough time which are provided by the supplier of the gloves. Also take into consideration the specific local conditions under which the product is used, such as the danger of cuts, abrasion, and the contact time. Gloves should be discarded and replaced if there is any indication of degradation or chemical breakthrough.
- Eye protection** : Eye wash bottle with pure water. Tightly fitting safety goggles.
- Skin and body protection** : Choose body protection in relation to its type, to the concentration and amount of dangerous substances, and to the specific work-place. Wear as appropriate: Flame retardant antistatic protective clothing. Workers should wear antistatic footwear.
- Hygiene measures** : When using do not eat or drink. When using do not smoke. Wash hands before breaks and at the end of workday.

**SECTION 9: Physical and chemical properties****Information on basic physical and chemical properties****Appearance**

- Form** : Liquid  
**Physical state** : Liquid  
**Color** : Colorless  
**Odor** : Mild, Hydrocarbon

**Safety data**

- Flash point** : -12.1 °C (10.2 °F)  
 Method: Tag closed cup
- Lower explosion limit** : 1 %(V)
- Upper explosion limit** : 6.5 %(V)

**Hydrocarbon Fluid Type III**

Version 1.6

Revision Date 2018-11-27

Oxidizing properties	: No
Autoignition temperature	: No data available
Molecular formula	: Mixture
Molecular weight	: Not applicable
pH	: Not applicable
Freezing point	: No data available
Pour point	No data available
Boiling point/boiling range	: 99 °C (210 °F)
Vapor pressure	: 1.50 PSI at 37.8 °C (100.0 °F)
Relative density	: 0.75 at 15.6 °C (60.1 °F)
Water solubility	: Negligible
Partition coefficient: n-octanol/water	: No data available
Viscosity, kinematic	: No data available
Relative vapor density	: 3.69 (Air = 1.0)
Evaporation rate	: 1
Percent volatile	: > 99 %

**SECTION 10: Stability and reactivity**

**Chemical stability** : This material is considered stable under normal ambient and anticipated storage and handling conditions of temperature and pressure.

**Possibility of hazardous reactions**

**Hazardous reactions** : Hazardous reactions: Hazardous polymerization does not occur.

Further information: No decomposition if stored and applied as directed.

Hazardous reactions: Vapors may form explosive mixture with air.

**Hydrocarbon Fluid Type III**

Version 1.6

Revision Date 2018-11-27

- Conditions to avoid** : Heat, flames and sparks.
- Materials to avoid** : May react with oxygen and strong oxidizing agents, such as chlorates, nitrates, peroxides, etc.
- Hazardous decomposition products** : Carbon oxides
- Other data** : No decomposition if stored and applied as directed.

**SECTION 11: Toxicological information**

- Hydrocarbon Fluid Type III  
Acute oral toxicity** : LD50: > 5,000 mg/kg  
Method: Acute toxicity estimate
- Hydrocarbon Fluid Type III  
Acute inhalation toxicity** : LC50: > 40 mg/l  
Exposure time: 4 h  
Test atmosphere: vapor  
Method: Acute toxicity estimate
- Hydrocarbon Fluid Type III  
Acute dermal toxicity** : LD50: > 5,000 mg/kg  
Method: Acute toxicity estimate
- Hydrocarbon Fluid Type III  
Skin irritation** : Skin irritation  
largely based on animal evidence.
- Hydrocarbon Fluid Type III  
Eye irritation** : Eye irritation  
largely based on animal evidence.
- Hydrocarbon Fluid Type III  
Sensitization** : Not a skin sensitizer.  
largely based on animal evidence.
- Hydrocarbon Fluid Type III  
Repeated dose toxicity** : Method: Based on product or component testing, long term repeated exposure may cause damage to the following organs:  
Target Organs: Auditory organs  
Estimated based on individual component values.
- Genotoxicity in vitro**
- 2,2,4-Trimethylpentane (Isooctane) : Test Type: Ames test  
Method: Mutagenicity (Escherichia coli - reverse mutation assay)  
Result: negative

**Hydrocarbon Fluid Type III**

Version 1.6

Revision Date 2018-11-27

	Test Type: Mouse lymphoma assay Method: OECD Guideline 476 Result: negative
	Test Type: Sister Chromatid Exchange Assay Result: negative
	Test Type: Unscheduled DNA synthesis assay Result: negative
Toluene	Test Type: Ames test Result: negative
	Test Type: Sister Chromatid Exchange Assay Result: negative
	Test Type: Mouse lymphoma assay Result: negative
	Test Type: Cytogenetic assay Result: negative
<b>Genotoxicity in vivo</b>	
2,2,4-Trimethylpentane (Isooctane)	: Test Type: Unscheduled DNA synthesis assay Species: Mouse Dose: 500 mg/kg Result: negative
	Test Type: Unscheduled DNA synthesis assay Species: Rat Dose: 500 mg/kg Result: negative
Toluene	Test Type: Cytogenetic assay Result: negative
	Test Type: Mouse micronucleus assay Result: negative
<b>Hydrocarbon Fluid Type III Carcinogenicity</b>	: Remarks: Not expected to be carcinogenic based on individual component data.
<b>Hydrocarbon Fluid Type III Reproductive toxicity</b>	: Suspected of damaging fertility or the unborn child.
<b>Hydrocarbon Fluid Type III Developmental Toxicity</b>	: Suspected of damaging fertility or the unborn child.
<b>Hydrocarbon Fluid Type III Aspiration toxicity</b>	: May be fatal if swallowed and enters airways.
<b>CMR effects</b>	
2,2,4-Trimethylpentane	: Mutagenicity: Tests on bacterial or mammalian cell cultures

**Hydrocarbon Fluid Type III**

Version 1.6

Revision Date 2018-11-27

(Isooctane) did not show mutagenic effects.  
 Teratogenicity: Animal testing did not show any effects on fetal development.  
 Reproductive toxicity: Animal testing did not show any effects on fertility.

Toluene Carcinogenicity: Not classifiable as a human carcinogen.  
 Mutagenicity: Animal testing did not show any mutagenic effects.  
 Teratogenicity: Some evidence of adverse effects on development, based on animal experiments.  
 Reproductive toxicity: Some evidence of adverse effects on sexual function and fertility, and/or on development, based on animal experiments.

**Hydrocarbon Fluid Type III  
Further information**

: Symptoms of overexposure may be headache, dizziness, tiredness, nausea and vomiting. Concentrations substantially above the TLV value may cause narcotic effects. Solvents may degrease the skin.

**SECTION 12: Ecological information****Ecotoxicity effects**

**Toxicity to fish** : LC50: 1 - 10 mg/l  
Species: Fish

**Toxicity to daphnia and other aquatic invertebrates** : LC50: 1 - 10 mg/l  
Species: Daphnia

**Toxicity to algae** : EC50: 1 - 10 mg/l  
Species: algae

**Toxicity to daphnia and other aquatic invertebrates (Chronic toxicity)** : Very toxic to aquatic organisms, may cause long-term adverse effects in the aquatic environment.

**Biodegradability** : This material is not expected to be readily biodegradable.

Elimination information (persistence and degradability)

Results of PBT assessment  
 2,2,4-Trimethylpentane : Non-classified PBT substance, Non-classified vPvB substance  
 (Isooctane)  
 Toluene : Non-classified vPvB substance, Non-classified PBT substance

Additional ecological information : Very toxic to aquatic life with long lasting effects.

**Ecotoxicology Assessment**

Short-term (acute) aquatic hazard  
 2,2,4-Trimethylpentane : Very toxic to aquatic life.

**Hydrocarbon Fluid Type III**

Version 1.6

Revision Date 2018-11-27

(Isooctane)  
Toluene : Toxic to aquatic life.

Long-term (chronic) aquatic hazard  
2,2,4-Trimethylpentane : Very toxic to aquatic life with long lasting effects.  
(Isooctane)  
Toluene : Harmful to aquatic life with long lasting effects.

**SECTION 13: Disposal considerations**

The information in this SDS pertains only to the product as shipped.

Use material for its intended purpose or recycle if possible. This material, if it must be discarded, may meet the criteria of a hazardous waste as defined by US EPA under RCRA (40 CFR 261) or other State and local regulations. Measurement of certain physical properties and analysis for regulated components may be necessary to make a correct determination. If this material is classified as a hazardous waste, federal law requires disposal at a licensed hazardous waste disposal facility.

Product : The product should not be allowed to enter drains, water courses or the soil. Do not contaminate ponds, waterways or ditches with chemical or used container. Send to a licensed waste management company.

Contaminated packaging : Empty remaining contents. Dispose of as unused product. Do not re-use empty containers. Do not burn, or use a cutting torch on, the empty drum.

**SECTION 14: Transport information**

**The shipping descriptions shown here are for bulk shipments only, and may not apply to shipments in non-bulk packages (see regulatory definition).**

Consult the appropriate domestic or international mode-specific and quantity-specific Dangerous Goods Regulations for additional shipping description requirements (e.g., technical name or names, etc.) Therefore, the information shown here, may not always agree with the bill of lading shipping description for the material. Flashpoints for the material may vary slightly between the SDS and the bill of lading.
