

Technical Data Sheet**BroShield[®] 21-B**
Decabromodiphenyl Ethane

BroShield[®] 21-B is a high purity, non-diphenyl oxide, brominated flame retardant with excellent thermal stability.

CAS Reg. Number: [84852-53-9]

Typical Properties	
Appearance	White Powder
Bromine Content	≥ 81%
Particle Size, D50	1 to 3 Microns
Melting Point	≥ 345 °C
PH Value	7 to 8

Applications

BroShield[®] 21-B is a very effective halogenated flame retardant for thermoplastics, thermosets and elastomers. It is also very useful in coatings, adhesives, and fabric back-coatings.

Packaging

Standard packages include 25 kg bags and 1,000 kg super sacks.

Health and Safety

The use of proper protective equipment is recommended. Excess exposure to the product should be avoided. Please wash thoroughly after handling. Store the product in a cool, dry, well-ventilated area, away from incompatible materials. For additional handling and toxicological information, consult the St. Louis Group Material Safety Data Sheet.
