## Steviol Glycosides (PSB-3038)

### Description

PSB-3038 is a stevia sweetener of proprietary blend of steviol glycosides designed to be used as a stand-alone sweetener or in combination with other stevia sweeteners to round out profile. The total steviol glycoside (TSG) content in the product is more than 95%.

PSB-3038 is made from stevia extract and purified through a proprietary process to have a well-defined ratio of steviol glycoside molecules. The process does not use any solvents or processing aides not approved for use in food processing.

### Functionality

PSB-3038 is developed for use in most food and beverage systems.

### Application Information

PSB-3038 can be used as a natural sweetener in food & beverage products.

### Regulatory Status:

FDA GRN 323 and/or 619  
FDA GRN 745

### Country of Origin

This product is manufactured in Malaysia.

### Specification\*

Parameter	Specification
Total Steviol Glycosides, % (wt/wt) on anhydrous basis	≥95
Ash, %	<1.0
Lead (as Pb), ppm	<1.0
Arsenic (as As), ppm	<1.0
Mercury (as Hg), ppm	<1.0
Total Plate Count, CFU/g	<1000
Yeast and Mold CFU/g	<200
Total Coliforms, CFU/g	<10
<i>Salmonella</i> sp.	Negative/25g

\* Values subject to change based on ingredient commercialization

### Storage and Handling

Store in a cool, dry, ventilated area.

### Allergen

This product does not contain any allergenic material.

### Quality Assurance

Strict quality control procedures are enforced during manufacture. Each lot of product is sampled and tested using laboratory methods that reference various recognized standard testing procedures.
