

SAFETY DATA SHEET

CA68

Issuing Date: 05-Jun-2012 Revision Date: 17-May-2014 Version 7

1. IDENTIFICATION OF THE SUBSTANCE/PREPARATION AND OF THE COMPANY/UNDERTAKING

Product name CA68

UN/ID No UN2022

Synonyms Cresylic acid

Molecular Weight No information available

Recommended use Chemical intermediate. Synthesis of polymers. Solvent mixture.

Manufacturer Sasol (USA) Corporation

1914 Haden Road, Houston, TX 77015-6498

Telephone: (713) 428-5400

Emergency telephone

Call Center Region Number NCEC Europe, Israel, Africa, Americas +44 (0) 2087 628 322 Middle East, Arabic African Countries (where European +44 (0) 1235 239 670 languages are spoken) Middle East/Africa (where Arabic is spoken) +44 (0) 1235 239 671 Asia Pacific +65 3158 1074 China +86 10 5100 3039 Australia +61 2801 44558 SCC Southern Africa (Sasol Call Centre) +27 17 610 4444 +27 800 112 890

2. HAZARDS IDENTIFICATION

GHS - Classification

Acute oral toxicity	Category 3
Acute dermal toxicity	Category 3
Skin corrosion/irritation	Category 1 b
Serious eye damage/eye irritation	Category 1
Skin sensitization	Category 1
Acute aquatic toxicity	Category 2
Chronic aquatic toxicity	Category 2

GHS Label elements, including precautionary statements

Signal Word: DANGER

Hazard statements

- Toxic if swallowed
- · Toxic in contact with skin
- · Causes severe skin burns and eye damage
- · May cause an allergic skin reaction
- Toxic to aquatic life with long lasting effects

Physical hazards

Flammable liquids

Category 4

Combustible Liquid

Precautionary Statements - EU (§28, 1272/2008)

P301 + P310 - IF SWALLOWED: Immediately call a POISON CENTER or doctor/ physician

P301 + P330 + P331 - IF SWALLOWED: rinse mouth. Do NOT induce vomiting

P260 - Do not breathe dust/fume/gas/mist/vapors/spray

P304 + P340 - IF INHALED: Remove to fresh air and keep at rest in a position comfortable for breathing

P280 - Wear protective gloves/ protective clothing/ eye protection/ face protection

P303 + P361 + P353 - IF ON SKIN (or hair): Remove/ Take off immediately all contaminated clothing. Rinse skin with water/ shower

P305 + P351 + P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing

P310 - Immediately call a POISON CENTER or doctor/ physician

P403 + P235 - Store in a well-ventilated place. Keep cool

P210 - Keep away from heat/sparks/open flames/hot surfaces. - No smoking

P370 + P378 - In case of fire: Use dry sand, dry chemical or alcohol-resistant foam for extinction

P273 - Avoid release to the environment.

3. COMPOSITION/INFORMATION ON INGREDIENTS

Chemical Name	CAS-No	Weight %	EC-No
2,4-xylenol	105-67-9	10-30	203-321-6
Phenol, 4-ethyl-	123-07-9	10-30	204-598-6
3-ethylphenol	620-17-7	10-30	210-627-3
m-Cresol	108-39-4	5-15	203-577-9
p-Cresol	106-44-5	5-15	203-398-6
2,5-Xylenol	95-87-4	5-15	202-461-5
2,3-xylenol	526-75-0	1-10	208-395-3
3,5-Xylenol	108-68-9	1-10	203-606-5
3,4-Dimethylphenol	95-65-8	1-10	202-439-5
o-Ethylphenol	90-00-6	1-10	201-958-4
Alkylphenols	26998-80-1	1-10	248-158-1
2,6-xylenol	576-26-1	1-10	209-400-1

4. FIRST AID MEASURES

General advice Immediate medical attention is required.

Main symptoms Salivation. Tremors. Convulsions. Erythema. Burn. Dizziness. Hypoactivity.

Eye contact Immediate medical attention is required. Immediately flush with plenty of water.

After initial flushing, remove any contact lenses and continue flushing for at least

15 minutes. Keep eye wide open while rinsing. Do not rub affected area.

Skin contact Immediate medical attention is required. Wash off immediately with soap and

plenty of water removing all contaminated clothes and shoes. Apply PEG/EtOH solution liberally to affected area. Allow to remain 15 to 30 seconds, then wash with water. Continue cycle of water - PEG/EtOH solution for at least 15 minutes. (PEG/EtOH solution consists of 2 parts polyethylene glycol 400 to 1 part ethanol. For external use only). Finish decontamination with thorough washing using soap

and water.

Inhalation Move to fresh air. Call a physician or poison control center immediately. If not

breathing, give artificial respiration. If breathing is difficult, give oxygen.

Ingestion Immediate medical attention is required. Do NOT induce vomiting. Rinse mouth.

Ingest immediately about 350 ml (5 ml/kg body weight) of activated charcoal slurry. Note: To prepare activated charcoal slurry, mix thoroughly 50 g of activated charcoal in 400 ml (about 2 cups) water. Never give anything by mouth to an unconscious person. Call a physician or poison control center immediately.

Notes to physician Product is a corrosive material. Use of gastric lavage or emesis is

contraindicated. Possible perforation of stomach or esophagus should be investigated. Do not give chemical antidotes. Asphyxia from glottal edema may occur. Marked decrease in blood pressure may occur with moist rales, frothy

sputum, and high pulse pressure. Treat symptomatically.

Protection of first-aidersUse personal protective equipment. Avoid contact with skin, eyes and clothing.

5. FIRE-FIGHTING MEASURES

Flammable properties

Combustible Liquid.

Suitable Extinguishing Media

Dry chemical, Foam, Water spray, Carbon dioxide (CO2).

Unsuitable Extinguishing Media

Do not use a solid water stream as it may scatter and spread fire.

Specific hazards arising from the chemical

In the event of fire and/or explosion do not breathe fumes. The product causes burns of eyes, skin and mucous membranes. Thermal decomposition can lead to release of irritating gases and vapors.

Protective equipment and precautions for firefighters

Wear self-contained breathing apparatus and protective suit.

6. ACCIDENTAL RELEASE MEASURES

Personal precautions Evacuate personnel to safe areas. Use personal protective equipment. Avoid

contact with skin, eyes and clothing. Keep people away from and upwind of

spill/leak.

Environmental precautions Prevent further leakage or spillage if safe to do so. Do not allow material to

contaminate ground water system. Should not be released into the environment.

Prevent product from entering drains.

Methods for containment Prevent further leakage or spillage if safe to do so. Prevent spreading over a wide

area (e.g. by containment or oil barriers).

Methods for cleaning upSoak up with inert absorbent material. Take up mechanically and collect in

suitable container for disposal. Clean contaminated surface thoroughly. Prevent

product from entering drains.

OTHER INFORMATION Refer to protective measures listed in sections 7 and 8.

7. HANDLING AND STORAGE

Advice on safe handling Provide adequate information, instruction and training for operators. Wear

personal protective equipment. Avoid contact with skin, eyes and clothing. Ensure adequate ventilation. In case of insufficient ventilation, wear suitable respiratory

equipment.

Technical measures/Storage

conditions

Keep containers tightly closed in a dry, cool and well-ventilated place. Keep in properly labeled containers. Keep away from open flames, hot surfaces and

sources of ignition.

Incompatible products Incompatible with strong acids and bases. Incompatible with oxidizing agents,

copper alloys, aluminum.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Engineering measures

Handle only in a place equipped with local exhaust (or other appropriate exhaust). Drain down and flush system prior to equipment break-in or maintenance. Carry out filling operations only at stations with exhaust ventilation facilities. Ensure that eyewash stations and safety showers are close to the workstation location.

Personal protective equipment

Eye/face protection Tightly fitting safety goggles Face-shield

Skin and body protection Wear as appropriate:. Impervious clothing; Impervious gloves; Boots; Chemical

resistant apron.

Hand protection Fluorinated rubber, Chloroprene, Polyvinylchloride, Break through time, >60 min.

Please observe the instructions regarding permeability and breakthrough time which are provided by the supplier of the gloves. Also take into consideration the specific local conditions under which the product is used, such as the danger of

cuts, abrasion.

Respiratory Protection When workers are facing concentrations above the exposure limit they must use

appropriate certified respirators

<u>Hygiene measures</u> Handle in accordance with good industrial hygiene and safety practice. When

using, do not eat, drink or smoke. Wash hands and face before breaks and immediately after handling the product. Remove and wash contaminated clothing before re-use. Contaminated work clothing should not be allowed out of the workplace. Provide regular cleaning of equipment, work area and clothing. Keep

away from food, drink and animal feeding stuffs.

Chronic toxicity

Carcinogenicity There are no known carcinogenic chemicals in this product.

Irritation Causes severe irritation and or burns.

Sensitization May cause sensitization of susceptible persons.

Mutagenic effects None known.

Reproductive toxicity This product does not contain any known or suspected reproductive hazards.

Developmental Toxicity None known.

Target Organ Effects Eyes, Kidney, Central nervous system (CNS), Central Vascular System (CVS),

Liver, Pancreas, Respiratory system, Skin, Central nervous system (CNS), Central Vascular System (CVS), Eyes, Kidney, Liver, Pancreas, Respiratory system, Skin.

12. ECOLOGICAL INFORMATION

Ecotoxicity

17% of the mixture consists of components(s) of unknown hazards to the aquatic environment.

Toxic to aquatic life with long lasting effects.

Chemical Name	Toxicity to algae	Toxicity to fish	Toxicity to microorganisms	Toxicity to daphnia and other aquatic invertebrates
2,4-xylenol		LC50 96 h: = 15.4 mg/L flow-through (Pimephales promelas) LC50 96 h: 6.3 - 9.6 mg/L static (Lepomis macrochirus) LC50 96 h: 4.1 - 9.6 mg/L flow-through (Lepomis macrochirus) LC50 96 h: 7.8 - 11 mg/L flow-through (Oncorhynchus mykiss) LC50 96 h: 11.3 - 13.9 mg/L flow-through (Oryzias latipes)		EC50 48 h: 1.77 - 3.17 mg/L (Daphnia magna)

			(Daphnia magna)

Persistence and degradability

Inherently biodegradable.

Bioaccumulative potential

Not likely to bioaccumulate

Mobility

Not expected to adsorb on soil. The product evaporates slowly.

Chemical Name	log Pow
2,4-xylenol	2.42
Phenol, 4-ethyl-	2.58
m-Cresol	1.96
p-Cresol	1.94
3,5-Xylenol	2.06
2,6-xylenol	2.36

13. DISPOSAL CONSIDERATIONS

Waste from residues / unused products

Must be incinerated in a suitable incineration plant holding a permit delivered by the competent authorities. The aqueous medium should be given appropriate treatment as waste water in line with local regulations.

Contaminated packaging

Do not re-use empty containers. Dispose of in accordance with local regulations. Empty containers should be taken to an approved waste handling site for recycling or disposal. Can be incinerated, when in compliance with local regulations. Where possible recycling is preferred to disposal or incineration.
