### Additional Information:

Molecular weight	108
Boiling point:	191° C
Melting point:	31 °C (May supercool)
UN #:	3455 Cresols, solid

Packaging: Available in railcar, tank truck, isocontainer, 450 lb drum, 200 kg drum

Shelf life: o-Cresol is stable and has an indefinite shelf-life with regard to composition. Depending upon storage conditions, it may absorb moisture from the air, darken in color over time, or leach low level metals from the storage vessel. This will be minimized, however, if the container remains sealed and the product is not exposed to air or excessive heating.

Applications: Novolac resins, herbicides, fragrance chemicals, additives, chemical intermediates.
