Haz	zard pictograms	
Sig	nal word	: Warning
Haz	zard statements	: H361 Suspected of damaging fertility or the unborn child. H413 May cause long lasting harmful effects to aquatic life.
Pre	cautionary statements	<ul> <li>Prevention:</li> <li>P201 Obtain special instructions before use.</li> <li>P202 Do not handle until all safety precautions have been read and understood.</li> <li>P273 Avoid release to the environment.</li> <li>P280 Wear protective gloves/ protective clothing/ eye protection/ face protection.</li> </ul>
		<b>Response:</b> P308 + P313 IF exposed or concerned: Get medical advice/ attention.
		<b>Storage:</b> P405 Store locked up.
		<b>Disposal:</b> P501 Dispose of contents/ container to an approved waste disposal plant.
Oth	ner hazards	
No	ne known.	

## SECTION 3. COMPOSITION/INFORMATION ON INGREDIENTS

Substance / Mixture	:	Substance
Substance name	:	Phenol, 4-methyl-, reaction products with dicyclopentadiene and isobutylene
CAS-No.	:	68610-51-5

#### Hazardous components

Chemical name	CAS-No.	Concentration (% w/w)
Phenol, 4-methyl-, reaction products with	68610-51-5	>= 90 - <= 100
dicyclopentadiene and isobutylene		

Actual concentration is withheld as a trade secret

# **LOWINOX®CPL**

Version	Revision Date:	SDS Number:	Country : US
1.3	2020/01/20	40000001000	Language: EN

The exact percentage concentrations of components are being withheld as a trade secret in accordance with paragraph (i) of §1910.120

SECTION 4. FIRST AID MEASU	SECTION 4. FIRST AID MEASURES				
General advice	:	No hazards which require special first aid measures.			
If inhaled	:	Move to fresh air in case of accidental inhalation of dust or fumes from overheating or combustion. If symptoms persist, call a physician.			
In case of skin contact	:	Take off contaminated clothing and shoes immediately. Wash off with soap and plenty of water.			
In case of eye contact	:	Flush eyes with water as a precaution. Remove contact lenses. Protect unharmed eye. Keep eye wide open while rinsing. If eye irritation persists, consult a specialist.			
If swallowed	:	Clean mouth with water and drink afterwards plenty of water. Do not give milk or alcoholic beverages. Never give anything by mouth to an unconscious person. If symptoms persist, call a physician.			
Most important symptoms and effects, both acute and delayed	:	Product dust may be irritating to eyes, skin and respiratory system. No information available. No information available.			
Notes to physician	:	The first aid procedure should be established in consultation with the doctor responsible for industrial medicine.			

## **SECTION 5. FIREFIGHTING MEASURES**

Suitable extinguishing media	:	Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.
Specific hazards during firefighting	:	Do not allow run-off from fire fighting to enter drains or water courses. Avoid generating dust; fine dust dispersed in air in sufficient concentrations, and in the presence of an ignition source is a potential dust explosion hazard.
		No information available.
Further information	:	Collect contaminated fire extinguishing water separately. This must not be discharged into drains. Fire residues and contaminated fire extinguishing water must be disposed of in accordance with local regulations.
Special protective equipment for firefighters	:	In the event of fire, wear self-contained breathing apparatus.

# **LOWINOX®CPL**

Version	Revision Date:	SDS Number:	Country : US
1.3	2020/01/20	40000001000	Language: EN

## **SECTION 6. ACCIDENTAL RELEASE MEASURES**

Personal precautions, protective equipment and emergency procedures	Use personal protective equipment. Dust deposits should not be allowed to accumulate on surfaces, as these may form an explosive mixture if they released into the atmosphere in sufficient concentration. Avoid dispersal of dust in the air (i.e., clearing dust surfa- with compressed air). Non-sparking tools should be used. Avoid dust formation.	
Environmental precautions		
	If the product contaminates rivers and lakes or drains in respective authorities.	form
Methods and materials for containment and cleaning up	Pick up and arrange disposal without creating dust. Keep in suitable, closed containers for disposal.	

### SECTION 7. HANDLING AND STORAGE

Advice on protection against fire and explosion	:	Avoid dust formation. Provide appropriate exhaust ventilation at places where dust is formed.
Advice on safe handling		Minimize dust generation and accumulation. Routine housekeeping should be instituted to ensure that dusts do not accumulate on surfaces. Dry powders can build static electricity charges when subjected to the friction of transfer and mixing operations. Keep away from heat and sources of ignition.
		For personal protection see section 8. Dispose of rinse water in accordance with local and national regulations.
Conditions for safe storage	:	Keep container tightly closed in a dry and well-ventilated place.
Materials to avoid	:	No special restrictions on storage with other products.

## SECTION 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

### **Control parameters**

### Components with workplace control parameters

Contains no substances with occupational exposure limit values.

### **Exposure controls**
