

November 14, 2017

To Whom It May Concern:

We can certify to the best of our knowledge of raw materials, process and products, used in the manufacture of **Celogen® OT** or **Celogen® AZ** that no bisphenol A, bisphenol S, butylated hydroxy toluene, latex or phthalates are intentionally added, are known reaction by-products or are expected to be found in this product.

This statement applies to the referenced products in the original CelChem sealed product packaging. Changes in the characteristics of our products could occur under circumstances beyond our control (e.g. damage in transit, storage conditions at user facilities, etc.). Once our customer takes possession of our product, it is their responsibility to assure it remains suitable for the intended use.

Sincerely,

John Ciaccio  
President, CelChem LLC
