# SINGLE ACTING BAKING POWDER

ITEM 113760

### **DESCRIPTION:**

SINGLE ACTING BAKING POWDER is an old fashioned chemical leavener with a single acid salt designed for a slow rate of reaction.

### **ADVANTAGES:**

- Exerts its leavening action during the baking process at a relatively slow rate.
- Improves the tenderness and moistness of baked products.
- The residual salts produce a better flavor in finished products with no "pyro" aftertaste.

### **USAGE:**

Recommended use level is up to 6% based on flour weight. Should be used where an initial reaction at room temperature is inappropriate.

### **INGREDIENT LEGEND:**

Corn starch, sodium aluminum phosphate and sodium bicarbonate.

### **STORAGE:**

Store in a cool, dry location. Keep containers well-closed when not in use. Shelf life is 12 months from manufacturing date. Best when used before 9 months.

Effective: 11-04-02  
Replaces: 12-00
