### **1,4-Dioxane Content** **Capstone™ Fluorosurfactants**

Chemours does not intentionally use 1,4-dioxane (CAS 123-91-1) in the manufacture of Capstone™ Fluorosurfactants or as an intentional component of these products. However, as a responsible supplier, we have recently taken steps to reduce the amount of 1,4-dioxane in selected grades of **Capstone™ Fluorosurfactants** where this substance is known to be present as an impurity.

Based on our 1,4-dioxane reduction effort and analytical confirmation, manufacturing lots of the product grades listed below contain < 0.1% 1,4-dioxane:

<b>Capstone™ Fluorosurfactant</b>	<b>Lots Containing &lt; 0.1% 1,4-Dioxane</b>	<b>Starting Production Date for &lt; 0.1% 1,4-dioxane</b>
<b>Capstone™ FS-30</b>	All Lots	All Production Dates
<b>Capstone™ FS-3000</b>	Lot 1275J and higher	October 9, 2021
<b>Capstone™ FS-31</b>	All Lots	All Production Dates
<b>Capstone™ FS-3100</b>	Lot 1262J and higher	September 16, 2021
<b>Capstone™ FS-34</b>	All Lots	All Production Dates
<b>Capstone™ FS-35</b>	All Lots	All Production Dates
